

# Comparison of 4 Forecast Error Distributions

## One Week Simulation (168 hours)

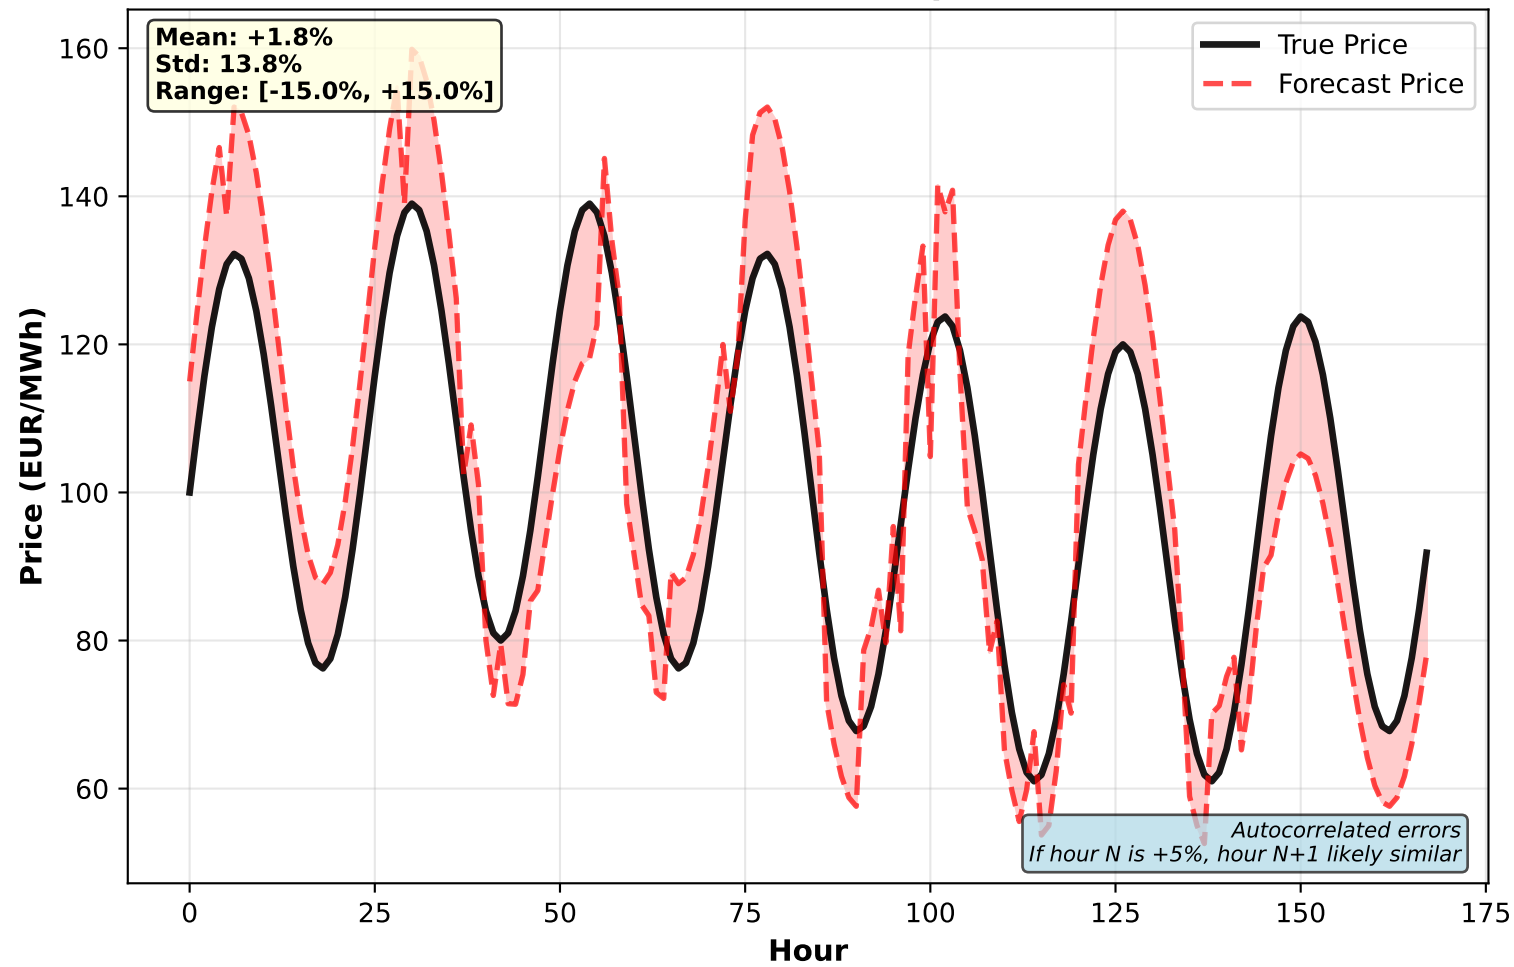

**UNIFORM ERROR**  
Random  $\pm 15\%$  (each hour independent)

**NORMAL ERROR**  
Gaussian  $\sigma=5\%$  (concentrated near 0%)

**ORNSTEIN-UHLENBECK ERROR**  
Time-correlated (realistic persistence)

**FIXED-BIAS ERROR**  
Deterministic +10% (always overestimate)
